

TUTORIAL MENAMBAHKAN PLUGIN TABLEPRESS

- Pastikan anda sudah login ke dalam website, pilih menu Plugins dan klik *add new*

The screenshot shows the WordPress admin interface. The left sidebar is blue and includes links for Dashboard, Posts, Media, Slider, Collage, Pages, Comments (12), TablePress, Appearance, Plugins (12), and other user management options. The main content area has a green header bar with the text 'Set up your Akismet account' and 'Almost done - configure Akismet and say goodbye to spam'. Below this, there's a message about the Hueman theme recommending the Hueman Addons plugin. A search bar at the top right says 'Search installed plugins...'. The main list shows one item: 'Advanced Custom Facebook Likebox Widget' with a status of 'Activate | Delete'. At the bottom, it says 'Version 1.2 | By Alan Ferdinand | Visit plugin site'.

- Pada kolom keyword ketikkan *tablepress*, dan pilih *install now*

This screenshot shows the 'Add Plugins' screen. The left sidebar is identical to the previous one. The main area has a green header bar with the text 'Add Plugins' and 'Upload Plugin'. It features a search bar with the word 'tablepress' typed into it, which is highlighted with a red box. Below the search bar, there are tabs for Search Results, Featured, Popular, Recommended, and Favorites. The results section shows two plugins: 'TablePress' and 'TablePress Extension: Chartist'. Both have an 'Install Now' button highlighted with a red box. The 'TablePress' plugin has a rating of 5 stars and was last updated 4 months ago. The 'TablePress Extension: Chartist' plugin also has a 5-star rating and was last updated 4 months ago.

3. Setelah melakukan instalasi kemudian klik active

The screenshot shows the WordPress admin dashboard under the 'Plugins' section. A search bar at the top right is set to 'tablepress'. Below it, the 'TablePress' plugin card is displayed, showing a 5-star rating of 3,226 reviews, over 600,000 active installations, and last updated 4 months ago. The 'Activate' button is highlighted with a red box. To the right, the 'TablePress Extension: Chartist' plugin is also listed with a 5-star rating of 3 reviews, 1,000+ active installations, and last updated 4 months ago.

4. Setelah di aktifkan kemudian masuk ke dalam menu TablePress

The screenshot shows the TablePress dashboard. The left sidebar has 'TablePress' selected. The main area shows a message about WordPress 4.9.4 being available. Below it, the 'TablePress' tab is selected in the navigation bar. The 'All Tables' tab is highlighted with a red box. A table at the bottom lists tables with columns for ID, Table Name, Description, Author, and Last Modified.

5. Pada Tab Add New digunakan untuk membuat table baru

The screenshot shows the 'Add New' tab of the TablePress dashboard. The left sidebar still has 'TablePress' selected. The main area contains a form with fields for 'Table Name', 'Description' (optional), and 'Number of Rows' and 'Number of Columns'. A note at the bottom says to enter the name, description (optional), and the number of rows and columns into the form below.

6. Berikut cara membuat table

The screenshot shows the WordPress dashboard with the 'TablePress' plugin active. The left sidebar includes links for Pages, Comments (45), TablePress (selected), All Tables, Add New Table, Import a Table, Export a Table, Plugin Options, About TablePress, Appearance, Plugins (12), Users, Tools, Settings, Instagram Feed, Social Plug, and Collapse menu. The main content area is titled 'Add New Table' and contains fields for 'Table Name' ('The Movie Character'), 'Description (optional)' ('this table lists some of our favorite characters'), 'Number of Rows' (5), and 'Number of Columns' (5). A note states 'The number of rows in your table.' and 'The number of columns in your table.' Below these are buttons for 'Add Table' (highlighted with a red box) and 'Save Table' (disabled). A message at the bottom says 'Thank you for creating with WordPress! • Thank you for using TablePress. Support the plugin with your donation!' and a link to 'Get Version 4.9.4'.

7. Setelah tables selesai dibuat, lanjut pada table content untuk melengkapi isi table.

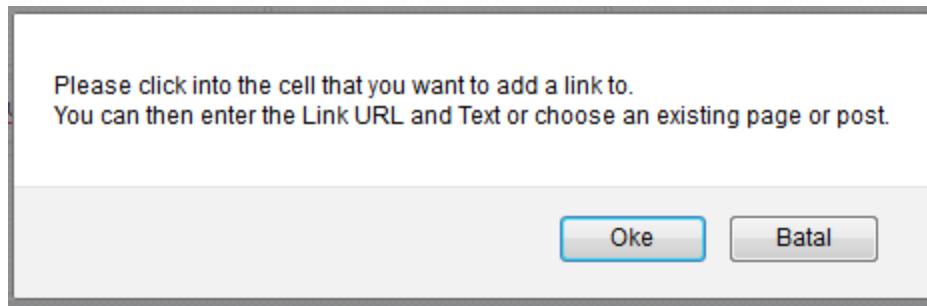

Pada kolom dan baris pertama digunakan untuk table header sisanya digunakan untuk isi table.

The screenshot shows the 'TableContent' section of the 'TablePress' plugin. It displays a table with four columns labeled A, B, C, and D. The first row contains the header categories: 'SUPER HEROES', 'SUPER VILLAINS', 'ACTION HEROES', and 'HORROR VILLAINS'. Subsequent rows list various characters under these categories. A note on the right side of the table states 'Untuk baris dan kolom pertama digunakan untuk table header' (For the first row and column used for table header).

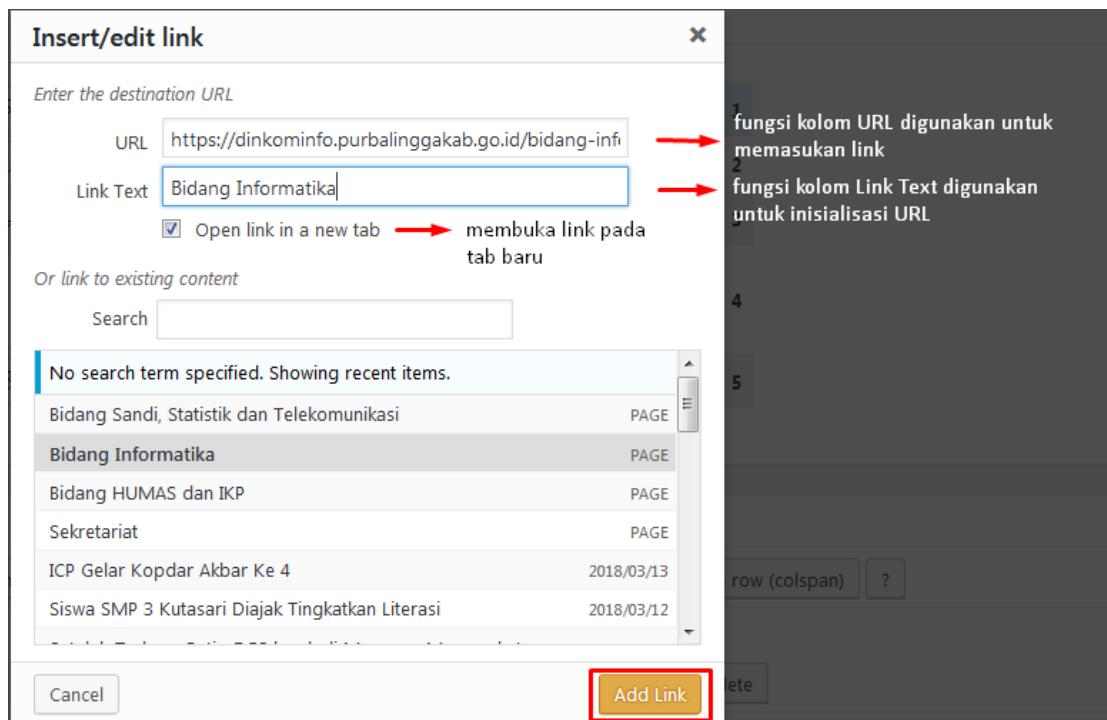

8. Lanjut pada table manipulation, button Insert Link digunakan untuk menambahkan link pada isi tabel.

The screenshot shows the 'Table Manipulation' section of the 'TablePress' plugin. It features a table with five rows and four columns. Below the table are several manipulation tools: 'Insert Link' (highlighted with a red box), 'Insert Image', 'Advanced Editor', 'Combine cells: in a column (rowspan)', 'in a row (colspan)', and question marks. There are also buttons for 'Selected rows: Hide, Show, Duplicate, Insert, Delete' and 'Selected columns: Hide, Show, Duplicate, Insert, Delete'. At the bottom are buttons for 'Add 1 row(s)', 'Add 1 column(s)', and 'Add'.

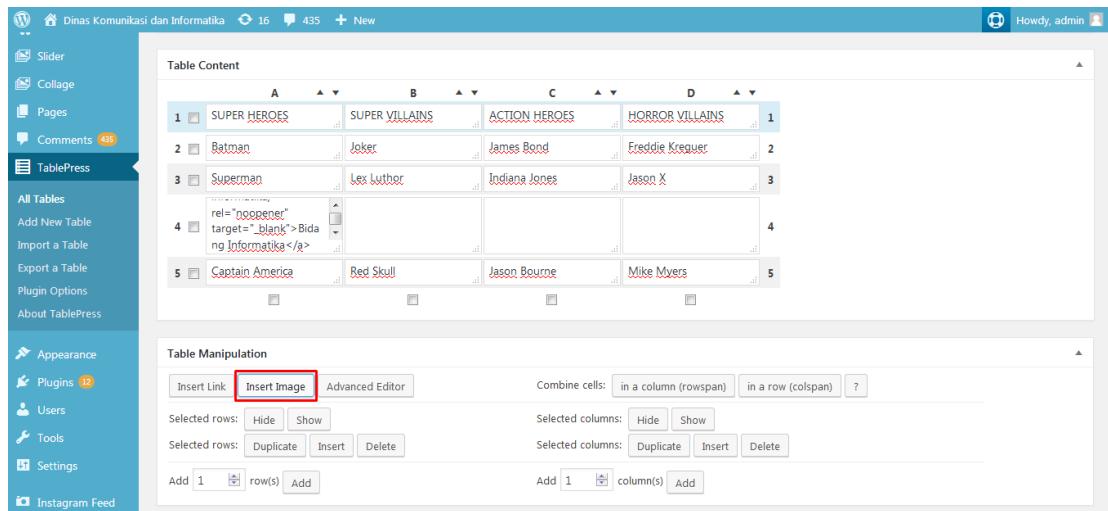

9. Setelah memilih button insert Link maka akan dimintai konfirmasi, pilih yes.

10. Setelah melakukan konfirmasi insert link, kemudian arahkan kursor pada table, klik dan masukan link yang dituju lalu klik add Link untuk menyimpan.

11. Button Insert Image digunakan untuk menambahkan foto pada isi tabel.

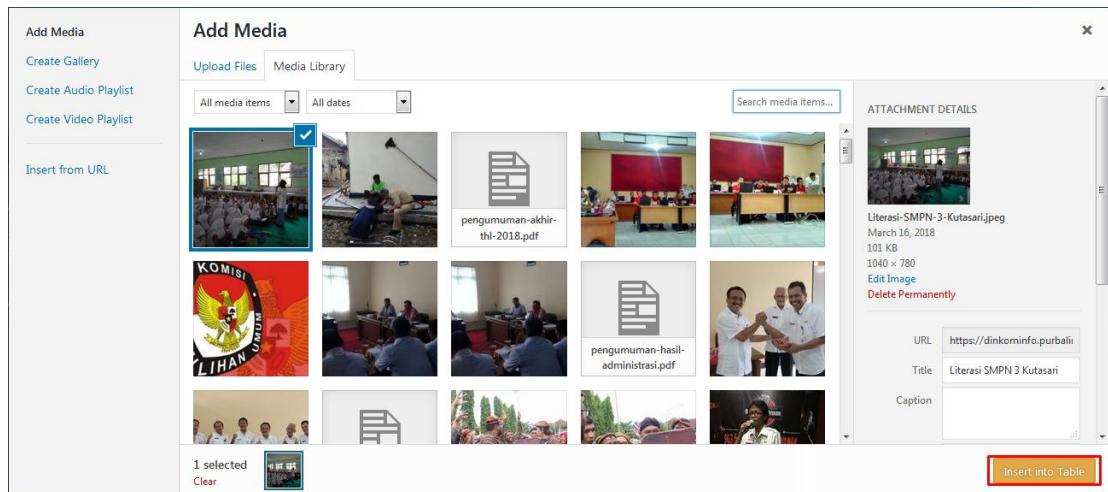

The screenshot shows a WordPress dashboard with the TablePress plugin active. A table is being edited with the following data:

	A	B	C	D
1	SUPER HEROES	SUPER VILLAINS	ACTION HEROES	HORROR VILLAINS
2	Batman	Joker	James Bond	Freddie Kreguer
3	Superman	Lex Luthor	Indiana Jones	Jason X
4	rel="noopener" target="_blank">Bida ng Informatika			
5	Captain America	Red Skull	Jason Bourne	Mike Myers

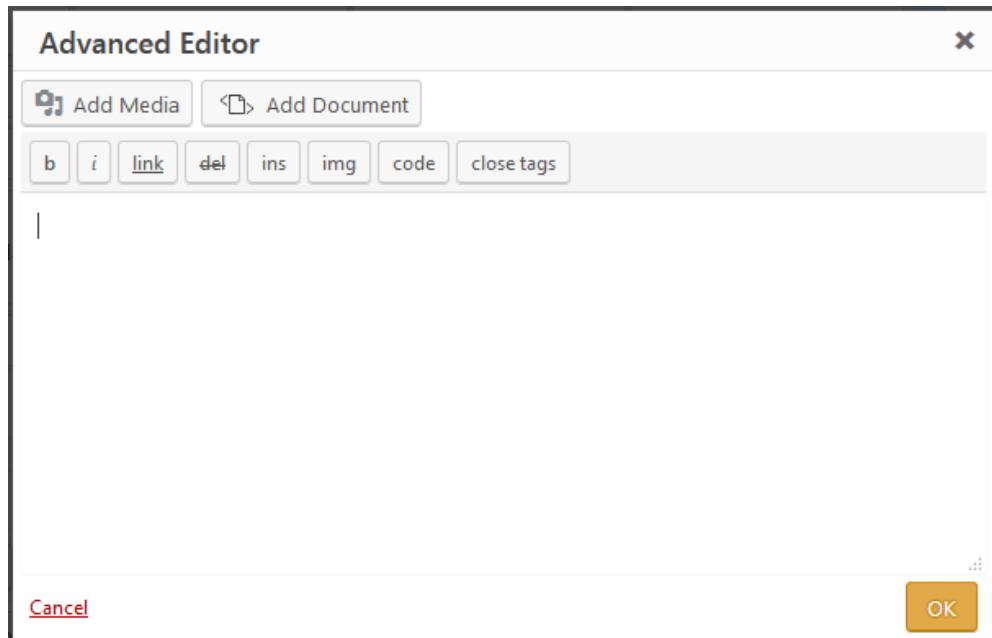

The 'Table Manipulation' toolbar at the bottom includes buttons for Insert Link, Insert Image (which is highlighted with a red box), Advanced Editor, Combine cells, Hide, Show, Duplicate, Insert, Delete, Add row(s), and Add column(s). The 'Insert Image' button is specifically highlighted.

12. Setelah melakukan konfirmasi insert image, kemudian arahkan kursor pada isi table, klik maka akan muncul tampilan sebagai berikut. Pilih salah satu gambar lalu klik button insert into table.

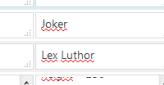

The screenshot shows the 'Add Media' modal window. On the left, there are options for 'Add Media', 'Create Gallery', 'Create Audio Playlist', 'Create Video Playlist', and 'Insert from URL'. The main area displays a grid of media items, including several images of people in various settings and two PDF documents named 'pengumuman-akhir-thi-2018.pdf' and 'pengumuman-hasil-administrasi.pdf'. One image of a group of people is selected, as indicated by a blue checkmark. On the right, there is an 'ATTACHMENT DETAILS' panel showing a thumbnail of the selected image, its filename ('Literasi-SMPN-3-Kutasari.jpeg'), upload date ('March 16, 2018'), file size ('101 KB'), dimensions ('1040 x 780'), and buttons for 'Edit Image' and 'Delete Permanently'. Below this, there are fields for 'URL' (set to 'https://dinkominfo.purbalini'), 'Title' ('Literasi SMPN 3 Kutasari'), and 'Caption'. The 'Insert into Table' button is highlighted with a red box in the bottom right corner of the modal.

13. Button Advanced Auditor merupakan kolom editor yang dapat berfungsi menambahkan link, image dan sebagainya.

14. Button Hide dan Show digunakan untuk menyembunyikan dan menampilkan baris tabel, pilih baris tabel yang akan disembunyikan kemudian klik Hide.

The screenshot shows the WordPress dashboard with the 'TablePress' plugin active. The left sidebar includes links for Slider, Collage, Pages, Comments (45), All Tables, Add New Table, Import a Table, Export a Table, Plugin Options, About TablePress, Appearance, Plugins (12), Users, Tools, Settings, and Instagram Feed. The main content area displays a table titled 'Table Content' with five rows and four columns. Row 4 contains a thumbnail image. The 'Table Manipulation' section below the table includes buttons for Insert Link, Insert Image, Advanced Editor, Hide, Show, Duplicate, Insert, Delete, and Add. The 'Hide' button is highlighted with a red box.

	A	B	C	D	
1	SUPER HEROES	SUPER VILLAINS	ACTION HEROES	HORROR VILLAINS	1
2	Batman	Joker	James Bond	Freddie Kreguer	2
3	Superman	Lex Luthor	Indiana Jones	Jason X	3
4	Bida ng Informatika				4
5	<input checked="" type="checkbox"/> Captain America	Red Skull	Jason Bourne	Mike Myers	5

15. Button Duplicate digunakan untuk menyalin baris tabel, button Insert digunakan untuk menambahkan baris, button Delete digunakan untuk menghapus baris tabel. Pastikan sebelum menggunakan button tersebut untuk memilih atau ceklist salah satu tabel.

The screenshot shows the WordPress dashboard with the TablePress plugin active. A table titled "Table Content" is displayed with the following data:

	A	B	C	D	
1	SUPER HEROES	SUPER VILLAINS	ACTION HEROES	HORROR VILLAINS	1
2	Batman	Joker	James Bond	Freddie Kreguer	2
3	Superman	Lex Luthor	Indiana Jones	Jason X	3
4	rel="noopener" target="_blank">Bida ng Informatika 				4
5	Captain America	Red Skull	Jason Bourne	Mike Myers	5
6	Captain America	Red Skull	Jason Bourne	Mike Myers	6

Below the table, the "Table Manipulation" section contains the following buttons:

- Insert Link, Insert Image, Advanced Editor
- Combine cells: in a column (rowspan), in a row (colspan), ?
- Selected rows: Hide, Show, **Insert**, Delete
- Selected columns: Hide, Show, Duplicate, Insert, Delete
- Add 1 row(s) Add
- Add 1 column(s) Add

The "Insert" button under "Selected rows" is highlighted with a red border.

16. Fungsi button *Add* digunakan untuk menambahkan baris, dapat mengisikan jumlah baris yang akan ditambahkan.

The screenshot shows the WordPress dashboard with the TablePress plugin active. A table titled "Table Content" is displayed with the same data as the previous screenshot. Below the table, the "Table Manipulation" section shows buttons for "Selected rows: Hide, Show, Duplicate, Insert, Delete" and "Selected columns: Hide, Show, Duplicate, Insert, Delete". The "Add 1 row(s) Add" button is highlighted with a red border.

17. Fungsi button in a column (rowspan) digunakan untuk menggabungkan antar kolom dan fungsi button in a row (colspan).

	A	B	C	D	
1	SUPER HEROES	SUPER VILLAINS	ACTION HEROES	HORROR VILLAINS	1
2	Batman	Joker	James Bond	Freddie Kreguer	2

21. Penjelasan pada Table Option.

The screenshot shows the 'Table Options' settings page in the TablePress plugin. The left sidebar has 'TablePress' selected. The main area contains several configuration options with explanatory text and arrows:

- Table Head Row: The first row of the table is the table header. → untuk menempatkan baris pertama sebagai table header.
- Table Foot Row: The last row of the table is the table footer. → untuk menempatkan baris terakhir sebagai table header.
- Alternating Row Colors: The background colors of consecutive rows shall alternate. → agar warna background colors berbeda
- Row Hover Highlighting: Highlight a row while the mouse cursor hovers above it by changing its background color. → jika kursor diarahkan pada table maka warna table akan berubah.
- Print Table Name: Show the table name above the table. → untuk menampilkan nama tabel diatas
- Print Table Description: Show the table description above the table. → untuk menampilkan deskripsi tabel diatas.
- Extra CSS Classes: Additional CSS classes for styling purposes can be entered here. This is NOT the place to enter [Custom CSS](#) code!

22. Penjelasan pada Table Features of The DataTables JavaScript Library.

The screenshot shows the 'Features of the DataTables JavaScript library' settings page in the TablePress plugin. The left sidebar has 'TablePress' selected. The main area contains several configuration options with explanatory text and arrows:

- Use DataTables: Use the following features of the DataTables JavaScript library with this table: → jika menggunakan javascript library.
- Sorting: Enable sorting of the table by the visitor. → menampilkan sorting table.
- Search/Filtering: Enable the visitor to filter or search the table. Only rows with the search word in them are shown. → menampilkan kolom pencarian.
- Pagination: Enable pagination of the table (viewing only a certain number of rows at a time) by the visitor. → menampilkan jumlah baris per page.
Show 10 rows per page.
- Pagination Length Change: Allow the visitor to change the number of rows shown when using pagination. → menampilkan nomor sesuai pilihan.
- Info: Enable the table information display, with information about the currently visible data, like the number of rows. → menampilkan informasi seperti nomor dan data.
- Horizontal Scrolling: Enable horizontal scrolling, to make viewing tables with many columns easier. → mengaktifkan scroll secara horizontal.
- Custom Commands:

Additional parameters from the [DataTables documentation](#) to be added to the JS call.

23. Fungsi button Preview digunakan untuk menampilkan table, button Save Changes digunakan untuk menyimpan table. Fungsi button Copy Table digunakan untuk menggandakan table, button Export Table digunakan untuk mengunduh table, button Delete table digunakan untuk menghapus table.

The screenshot shows the 'Features of the DataTables JavaScript library' settings page in the TablePress plugin. The left sidebar has 'TablePress' selected. The main area contains several configuration options with explanatory text and arrows. At the bottom, there are two buttons:

- Preview** (highlighted with a red box)
- Save Changes** (highlighted with a yellow box)

Below these buttons is a row of 'Other Actions' buttons:

- Copy Table
- Export Table
- Delete Table

At the very bottom of the page, there is a footer message: "Thank you for creating with [WordPress](#) • Thank you for using [TablePress](#). Support the plugin with your [donation](#)!" and "Version 4.9.4".

24. Tab *Import* digunakan untuk menambahkan atau memasukan table.

The screenshot shows the WordPress admin dashboard with the TablePress plugin active. The left sidebar has a 'TablePress' menu item under 'Appearance'. The main area shows the 'Import' tab selected. The 'Import Tables' section contains fields for 'Import Source' (File Upload selected), 'Select file' (a placeholder 'Telusuri...'), 'Import Format' (CSV - Character-Separated Values selected), 'Add, Replace, or Append?' (Add as new table selected), and 'Table to replace or append to' (a dropdown menu). A large red box highlights the 'Import' button at the bottom right of the form. Red arrows point from the text descriptions to their respective UI elements: 'memilih source yang akan digunakan.' to the File Upload radio button, 'mengupload berkas yang akan digunakan.' to the 'Select file' field, 'memilih format yang akan digunakan.' to the 'Import Format' dropdown, 'memilih penempatan tabel, apakah sebagai tabel baru atau mengganti.' to the 'Add, Replace, or Append?' radio buttons, and 'memilih tabel yang akan digantikan.' to the 'Table to replace or append to' dropdown.

25. Tab *Export* digunakan untuk mengeluarkan atau mengunduh table.

The screenshot shows the WordPress admin dashboard with the TablePress plugin active. The left sidebar has a 'TablePress' menu item under 'Appearance'. The main area shows the 'Export' tab selected. The 'Export Tables' section contains fields for 'Tables to Export' (a dropdown menu showing 'ID 5: The Movie Character'), 'Export Format' (CSV - Character-Separated Values selected), 'CSV Delimiter' (a dropdown menu showing ', (comma)'), and 'ZIP file' (a checkbox). A large red box highlights the 'Download Export File' button at the bottom left of the form. Red arrows point from the text descriptions to their respective UI elements: 'memilih format yang akan digunakan.' to the 'Export Format' dropdown, 'memilih table yang akan diunduh.' to the 'Tables to Export' dropdown, and 'button yang digunakan untuk mengunduh.' to the 'Download Export File' button.

26. Tab *Plugin Option* digunakan untuk mengatur posisi admin menu.

The screenshot shows the WordPress admin dashboard with the TablePress plugin active. The left sidebar has a 'TablePress' menu item under 'Appearance'. The main area shows the 'Plugin Options' tab selected. The interface includes sections for 'Frontend Options' and 'User Options'. Under 'User Options', there is a 'Admin menu entry' dropdown set to 'Top-Level (middle)'. A large red box highlights the 'Save Changes' button at the bottom left of the form. Red arrows point from the text descriptions to their respective UI elements: 'memilih posisi.' to the 'Admin menu entry' dropdown, and 'button save untuk menyimpan.' to the 'Save Changes' button.

27. Tab *About* menjelaskan tentang TablePress.

The screenshot shows the WordPress admin interface with the TablePress plugin active. The left sidebar has a 'TablePress' menu item under 'Pages'. The main content area is titled 'TablePress' and includes tabs for 'All Tables', 'Add New', 'Import', 'Export', 'Plugin Options', and 'About'. The 'About' tab is highlighted with a red box. The content pane displays information about the plugin, including its purpose (allowing users to create and manage tables), usage (adding or importing tables), and a note about the Hueman theme's integration. It also includes sections for 'Author and License' (written by Tobias Bäthge, GPL 2 license) and 'Credits and Thanks'.

28. Jika sudah kembali pada tabel dan copy shortcode untuk ditampilkan.

This screenshot shows the 'Edit' screen for a table with ID 5. The left sidebar shows the 'TablePress' menu item under 'Pages'. The main content area shows the table's information: Table ID 5, Table Name 'The Movie Character', and Description 'this table lists some of our favorite characters'. A red box highlights the 'shortcode' input field, which contains '[table id=5 /]'. Below the table information, there are 'Preview' and 'Save Changes' buttons.

29. Masuk ke dalam menu Pages dan klik *add new*.

This screenshot shows the 'Add New' screen for pages. The left sidebar has a 'Pages' menu item under 'Pages'. The main content area is titled 'Pages' and includes an 'Add New' button highlighted with a red box. The content pane displays a list of existing pages (e.g., '(no title) — Draft', 'Aset Daerah', 'Bidang HUMAS dan IKP') with columns for 'Title', 'Author', and 'Date'. There are also buttons for 'Search Pages', 'Bulk Actions', 'Apply', 'All dates', and 'Filter'.

30. Beri judul tabel dan paste shortcode pada lembar isi, kemudian klik button publish untuk menyimpan.
